Insuring Ambition

We make workers compensation simple

Our aspiration is to be the workers compensation insurer of choice, providing trusted expertise and easy interactions that protect the ambition of Australian businesses and workers.

We partner with organisations to reduce workplace injuries and achieve sustainable return to work outcomes. By building a strong relationship between claims engagement and premium, we seek to optimise results for businesses and their workers.

3 steps to success

Communicate with empathy

We want to know the person behind the policy and the people behind the claim. By understanding your needs and doing the simple things well, we help make your world a safer place.

Collaborate to make things easy

We form strong partnerships based on mutual respect, shared goals, and easy interactions. We simplify workers compensation so that your business and workers can spend more time achieving your ambition.

Innovate as experts

We provide industry leading expertise through our people and preferred suppliers, providing innovative solutions that optimise claims and premium outcomes.
